

Attendees Attendance Link

Basic Co

An Attendee receives an email from the coordinator. They click a button in the email, to take them to a page where they can confirm or deny attendance. Their response is recorded and the attendee list is updated. This process can be used to send a confirmation or cancellation.

Alternate C

- Ignoring the email for an extended period of time will result in a default rejection.
- If the attendee has been removed from the event and they try to confirm, they should display a message that they have been removed from the list.
